The cubbies improve organization and efficiency, While the crisp white interior ensures guests don't have anything behind. When adjacent to toilet, the cutty should be fixed.

The use of white countertop is required. The lights in the room are reflected off the white top, intensifying the brightness of the space.

Single top-edge profile, on counter and shelf, creates a level of sophistication and character to the vanity.

The integrated back shelf keeps guest's items accessible and dry. And hardware/towel bars at each cubby keep towels handy.
